Hosting organization: The day care centre "Krone" is situated in the city centre of Karlsruhe. The centre offers a full-day childcare from 6.30 – 17.00 hours for 50 children from the age of 1 to 6. The children have a daily breakfast and lunch. A various program is offered: beside the classical games for children they have the possibility to deal with different topics. They can experience themselves by playing and working with art and colours, train their bodies in sports, be curious in experiments and natural sciences, enjoy a community in role playing and make steps in building and construction. Each topic is situated in a special room with the suitable materials. The children are accompanied by the educators. The main goal is that the interest of the children is seen by the educators and that the children get supported. Additional excursions and cooperations with other institution take place. The day care centre "Krone" offers vacancies for all children, no matter what nationality or social background they have. Also children with disabilities are received. It's only important to have a mix of age and gender of the children in the group.

The day care centre "Krone" has a long-term experience in working with local volunteers in its organisation. The team which is mixed of different nationalities as well as the children which are coming from various national backgrounds offer an exciting working area for European Volunteers. Especially for the children in the day care centre it's an important experience to get in touch with various cultures. But also for the team it's an important and inspiring experience.
