Hosting organisation

The day care centre "Windrad" is located in the neighborhood of Oberreut, in the city of Karlsruhe. The centre offers a full-day childcare from 7.00 to 17.30 for 47 children from the age of 1 to 6. There are three different groups of children, and the volunteer will support the daily activities with the kids (art activities, sports, experimental activities, role playing, building and construction) in the group with the small toddlers, in the age 1-3 years.

The Kita focuses on the holistic health concept according to Sebastian Kneipp. This includes, among other things, a special approach to nature and to health, throughout a constant contact with the outdoor and an healthy nutrition, finding the perfect balance throughout sharing in the community.

The tasks of the volunteer are supporting the educators in one group of children in their daily activities, supporting the kitchen (preparing, cleaning breakfast and lunch), but as well realizing his/her own project with the children. Depending on the own interests of the volunteer there's the possibility to support one of these topics with own workshops or ideas - and also to realize an own activity within this topic.

The volunteer will also have a chance to go to a language course and get or improve German language skills. The volunteer will also attend, if interested, a course to become youth leader, and a first day course, obtaining afterwards extra certificates valid in Germany and also in other countries.

As independent organization, the KJW organizes leisure activities for children and young people between the ages of 6 and 20, extracurricular education and workshops, as well as intercultural encounters and projects for young people and young adults between 15 and 27.

Our work focuses on participation and personal development, and our activities are also deliberately offered to children and young people from socially disadvantaged backgrounds and to young people with a migration background.
